I'm not seeing her on my end either. My first recommendation would be to try it again. If it doesn't work again, let me know and I'll see what ITSD has to say.

**Subject:** RE: Database Issue

I'm not aware of any issues with the old A2A database. What is the name of the client?

**Subject:** Database Issue

Good Morning Emily,

Rachel House has tried to enter a new client into the "old" database, with no luck and we need your assistance to know what the problem is. They completed the client intake, submitted it and the client is not appearing in the IPCP drop down menu. Any advice you can give? They did not receive any sort of an error message, nor a notification that the client doesn't qualify or a message that any required info on the client assessment was missing.

Thank you for your help!

Carrie
